

REMARKS

Drawings

The Examiner allowed claims 25–29 and 31–32, but objected to the drawings as failing to show “the plurality of RFID transceivers mounted on a flexible sheet and a dispenser having RF shielding and an opening.” To overcome the objection, Applicant submits for the Examiner’s approval new Figures 14 and 15 which show these features. Formal drawings of the new Figures 14 and 15 are attached to this amendment on a single drawing sheet, size 8.5 x 11 inch.

The specification is amended at page 13 to add the new Figures 14 and 15 to the Brief Description of the Drawings. The specification is amended at pages 25–26 merely to add drawing reference numerals for the reel 700, cache 702, opening 704, and sheet backing 706 shown in the new figures. A marked up copy of the specification amendment appears on the final page of this amendment, following my signature.

Since the newly submitted drawings overcome the objection, the application should be allowable.

Respectfully submitted,

Robert J. Stern
